

By the Numbers:

In 2014 the Federal Bureau of Investigation (FBI) initiated a study of active shooter incidents to provide accurate data in order to better understand, prevent, prepare for, respond to, and recover from these incidents.

- The FBI identified 160 active shooter incidents between the years of 2000-2013.
- These incidents occurred in 40 out of 50 states and the District of Columbia.
- 46% occurred in the business environment:
 - 27.5% in an environment open to pedestrian traffic
 - 14.3% in a business closed to pedestrian traffic

*An armed intruder finds his way into a business or organization.
Now what?*

*It can happen. It has happened.
Over, and over again.*

Active Shooter/Armed Intruder in the Workplace

This critical new program from Sorensen, Wilder & Associates will aid your team in:

Creating a state of preparedness.

Is your workplace ready for the unforeseen emergency, whether it be environmental, accidental or hostile? Does your Emergency Operations Plan cover all it needs to cover?

Defining critical terminology

and concepts specific to armed shooter/active intruder within your workplace. Specifically, is the event a focused and limited single-target event or a broad, facility-wide continuous event? It is vital for your team to understand how one type of incident can morph into another.

Reviewing a case study and discuss the unforeseen challenges that the event can generate that could adversely affect the safety of your employees and customers, and the performance of staff and operational state of your company.

Learning how your staff can protect themselves during the commission of an active shooter event within the facility by utilizing 'The 4 Outs' of the Active Shooter Safety Action Plan.

Understanding the increased stress and anxieties that go hand-in-hand with an armed intruder event and how to control those anxieties and stress through preparation and training.

Understanding the critical decision making process and the psychology behind it. Participants will learn to refine decision making skills in order to increase the likelihood of survival of both employees and customers during an active shooter event.

Learning the S.T.A.F. Protocol, to assist in making the critical decision between personal safety and the safety of employees and customers.

Remain safe and alive during an active hostile event!
