We live in a time when
preparedness is no longer
optional.
It's critical.

From 2006 -2019 there were more shootings in churches and houses of worship than in the previous 25 years combined.

In 2017, we witnessed the most deadly church shooting in modern US history when a shooter walked into a small Texas Baptist church and opened fire. 20 people died and 26 more were injured.

Tragically, even a house of worship is not immune to acts of violence.

Safe Sanctuary prepares your church or house of worship by:

- Creating a state of preparedness in your church or house of worship, making you ready for the unforeseen emergency.
- Defining critical terminology and concepts related to an armed intruder. Is the event a limited, single-target event or a broad, community-wide continuous event? Gain a critical understanding of both, and how one scenario can morph into another.
- Reviewing a case study and the unforeseen challenges that an event can generate that could adversely affect your church or house of worship.
- Equipping you to protect your congregation during the commission of a hostile active event by utilizing 'The 4 Outs'
- Understanding the increased stress and anxiety that go with an armed intruder event and how to control them through preparation and training.
- Understanding the critical decision making process and the psychology behind it. Learn to refine decision making skills in order to increase the likelihood of survival for everyone present.
