

Active shooter incidents in hospitals happen fast and are unpredictable.

Will you be ready?

ACTIVE SHOOTER/ARMED INTRUDER IN THE HOSPITAL SETTING

This critical program from Sorensen, Wilder & Associates will aid your team in:

Achieving a State of Preparedness

Is your hospital ready for this new threat? Does your Emergency Operations Plan cover all it needs to cover? Are your employees trained in realistic scenarios? Do your employees know how to protect themselves, your patients and visitors?

Defining terminology and concepts specific to an armed intruder in your hospital, specifically, a focused and limited active shooter event or a broad, hospital-wide continuous event. Understanding each type of event and how one can morph into another.

Understanding the challenges that an event can generate, the impact on the safety of patients, visitors, and staff, and the impact on staff performance and hospital operations.

Learn how your staff can protect themselves during an active shooter event by using 'The 4 Outs' of the Active Shooter Safety Action Plan.

Understand the increased stress and anxieties

that happen with an active shooter event and how to control these factors through preparation and training.

Understand the critical decision making process

and the psychology behind it. Refine decision-making skills to increase the likelihood of survival of patients, visitors, and staff during an active shooter event.

Learning the S.T.A.F. Protocol to assist in making the critical decision between personal safety and the safety of your patients and visitors.

Remain safe and alive during an active shooter event!
